Results by Segment-Department Store Business (2/3)

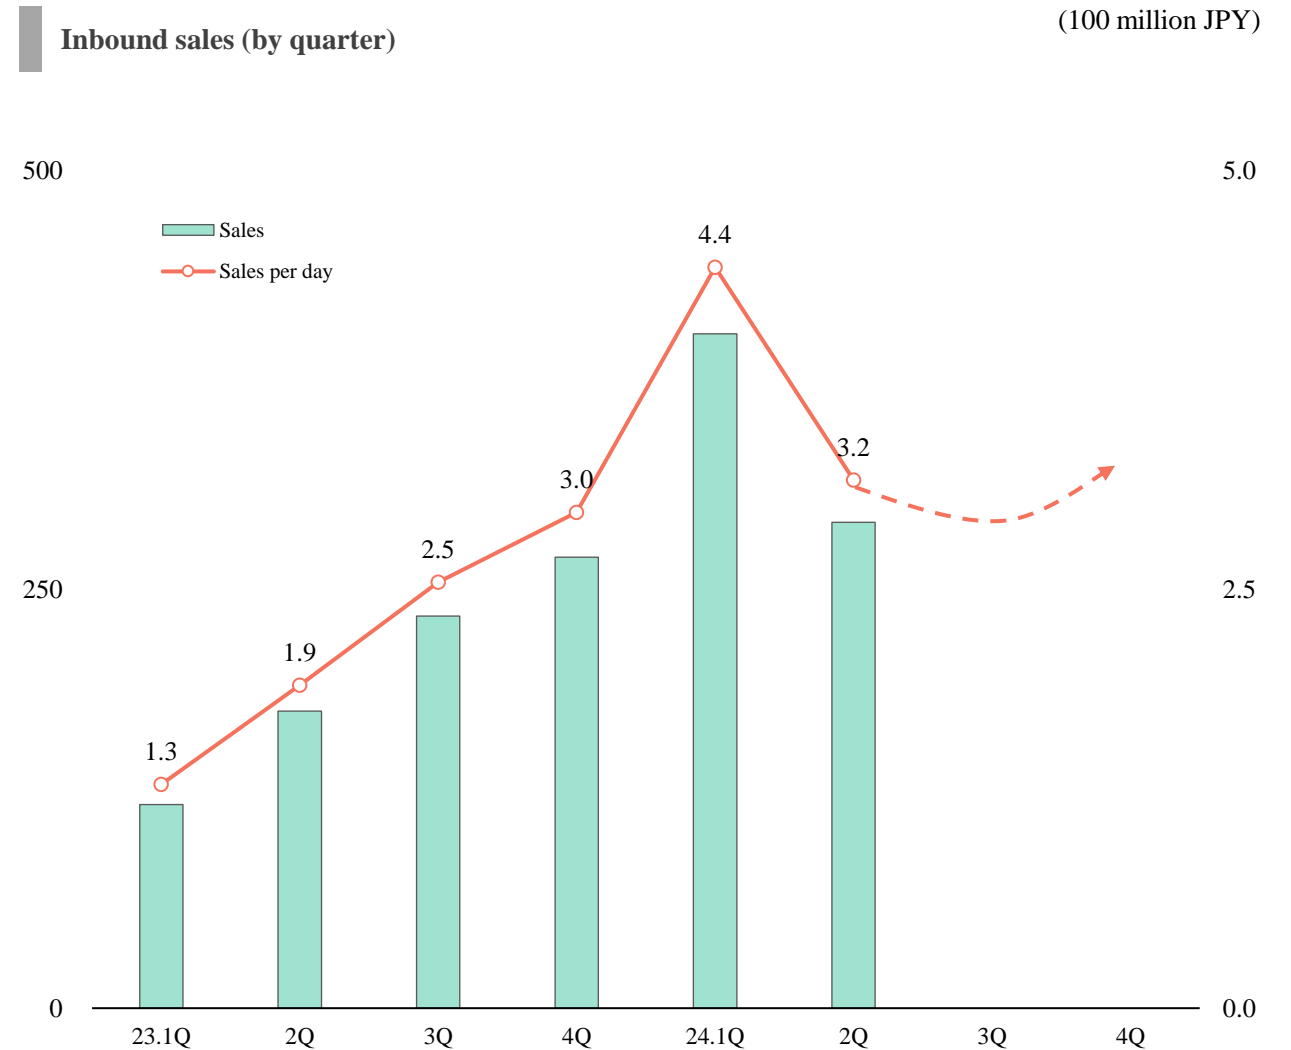

- Domestic sales remained stable in the 2Q period, exceeding the previous year's level (*2Q real basis +4.0% YoY), on par with initial forecast.
- Sales driven by urban stores, centered on Hankyu Main Store and Hakata Hankyu (+21% YoY).

All store sales trends (YoY change)

Results by Segment-Department Store Business (3/3)

- Due in part to the depreciation of JPY in 1Q, inbound sales reached a record high of 69.3 bn. JPY in 1H.
- Considering recent trends and exchange rate fluctuations, expecting 57.0 bn. JPY (+13% YoY) in 2H and 126.0 bn. JPY for the full-year FY2025.

Results by Segment-Supermarket Business

- In supermarkets, existing-store sales exceeded the previous year's level due to steady number of customers, despite a decline in the unit price per customer due to a decrease in the number of items purchased. Operating profit was almost flat YoY despite higher personnel expenses.
- In food manufacturing and home delivery, sales declined due to the termination of operations of unprofitable subsidiaries, despite strong performance in food manufacturing, especially prepared food.

Policy	Progress in 1H of FY2025
Deepening of existing business “Domestic Customer and Store Business”	[Department Store Business] Promoting reforms and service development to maximize LTV of key customers [Supermarket Business and others] Executing initiatives to optimize management resources
Focus on and strengthen “Overseas Customer Businesses”	<ul style="list-style-type: none"> Establishing a system that is capable of responding to the high-potential and full-scale efforts of the company
Development of new revenue sources	<ul style="list-style-type: none"> Steady progress in Customer Service Business; testing begins for use of customer data
Development and use of Group infrastructure to support business	<ul style="list-style-type: none"> IT/DX continues to prepare for business implementation and utilization Promoting training programs across the Group to enhance value creation based on the human resources strategy Further strengthening activities for regional co-creation unique to our group, and promoting environmental measures

- Developed the organization and began full-scale efforts to maximize LTVs on key customers.

Overseas wealthy customers (Department Store)

Personal Communication

- Attendance staff for overseas VIP customers to be strengthened by actively hiring foreign language personnel (50 staff planned by the end of this fiscal year)
- Hankyu Umeda Main Store opened a new overseas customer service corner exclusively for VIP customers and expands its support for overseas customers. (shopping attendant service, various consultation services, etc.)

Customer Expansion

- Establish alliances with various business partners who have overseas wealthy customers as clients, and strengthen the promotion of new overseas wealthy customers to visit our stores through cooperation on customer programs.

Department Store Business

Maximizing LTV through Digital and Real Communications

- The VIP salon at the Hankyu Umeda main store, which is characterized by hands-on experience, is scheduled to open in February 2025 with additional features, including private rooms, from the initial plan.
- Launched a new reservation system: "H2O ID" registration to improve UX and deepen customer relationships. (Approx. 40,000 new people registered to use the reservation system / Approx. 240,000 H2O IDs *as of end of September)

Increase store profitability by strengthening ability to attract customers and reviewing business structure

- Hanshin Umeda Main Store is in the process of planning to open a large specialty store with high customer attraction capacity around spring 2025.
- Renovation of the "Kawanishi Hankyu Square" is underway, and the opening is scheduled for spring 2025.

Supermarket Business

- Completed making Kansai Food Market a wholly owned subsidiary, integrating sales headquarters and head office functions in order to achieve synergies in Supermarket Business.

- Promote training programs across the Group to activate value creation based on the Human Resources strategy
- Further strengthen the Group's unique community co-creation activities and promote specific environmental measures

Human resource development and investment

- Conducted "H2O Future Exploration School" to learn mindset, ideas, skills and actions to explore new markets and new business models.
- Launched joint Group training for new employees and newly assigned managers to promote mutual understanding and synergy within the Group.
- Promote the development of a Group-wide human resources database and the collection and accumulation of talent management information.

Sustainability Management

Initiatives based on a comprehensive collaboration agreement with Osaka Prefecture

- Launch of the oHOHo CYCLE PROJECT, a model demonstration project aimed by the Ministry of the Environment at realizing a regionally co-created circular economy and building a sustainable fashion platform
- Full-scale implementation of the "bench for thinking-recycling of life" as part of the "osaka forest recycling promotion project"
Advancing the production of benches made of wood from Osaka Prefecture, offering hands-on programs, and starting web media by prefectural citizens

Environmental Measures

- Gradual promotion of "conversion to renewable energy" for reduction of greenhouse gas emissions (12% reduction in FY2024 from FY2020)
Hankyu Umeda Main Store, Nishinomiya Hankyu, and IZUMIYA SC Nishinomiya Gardens have completed conversion of 100% of electricity consumption to renewable energy

- Forecast for FY2025 is better than initial expectations, with a target return on equity of 10.8%, but the actual return on equity 6.2%. Aim to achieve the targets for FY2027 by consistently implementing Mid-term Management Plan.
